

To whom it may concern

Hereby we confirm that we certified the

Bacteriology BSL-3 Laboratory

and the

Virology BSL-3 Enhanced Laboratory (including ABSL-3)

of the

National Public Health Laboratory

Makmal Kesihatan Awam Kebangsaan
Kementerian Kesihatan Malaysia
Lot 1853 Kg. Melayu Sg. Buloh
47000 Sg. Buloh, Selangor,

both designed and built by **ERLA Technologies Sdn. Bhd.** according to ANZS 2243.3:2002 against the high containment BSL-3 laboratory standards set by the WHO Guidelines (2004) and the US NIH Biosafety Level 3-Laboratory Certification Requirements for their own laboratories.

The architecture, the facility, the engineering and the implementation as a whole is in compliance with international state-of-the-art biosafety principles.

We found the laboratories were designed and built with foresight and good care.

Singapore, 13 November 2007
